Food Waste (general)- Please dispose of waste food safely and responsibly. Unfortunately, the campsite is not suitable for digging waste pits (wet or dry), so alternative methods must be used. If safe to do so, consider incinerating waste on your campfire, or bagging and binning it. ***Under no circumstances should waste be left out for animals, or thrown over neighbouring fences.***

- **Disposal of Grease, Fat & Oil.** Do not cause or allow grease, fat or oil to go down sinks or toilets. This will lead to blocked drains, unpleasant smells, and possible loss of facilities. As suggestions:

- Pour hot fat into a suitable metal container and allow to cool then bag & bin it.
- Allow hot oil to cool, then pour into a container that can be properly closed and sealed.
- Wipe used pots and dirty dishes with paper towels to remove greasy residue before washing, then place towels in the bin.
